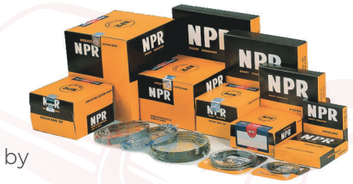
Products

NPR (Made in Japan)

Piston Rings & Cylinder Liners



"NPR" Brand selected by the world high performance engines. With advance in automobile technology, higher quality/performance has been required for automobile component parts.

NPR products are used in all kind of engines with high quality backed up by proven technology and abundant lineup.

TAIHO (Made in Japan)

Engine Bearing, Thrust Washer, Piston Pin Bush

Taiho's Micro grooved bearings, Washer, Pin Bush are highly innovative, high-performance with fine grooves provided in the inner wall. They are manufactured using best materials with cost effective solution to the customers.

ART (Made in Japan)

Pistons

"ART" pistons, which are on the cutting edge of technology trends such as high mileage and high output power, are widely used for passenger cars, commercial cars, outboard engines, general-purpose engines, and race engines, and they are produced by their unique spirit of craftsmanship, and by their relentless R&D.

GMB (Made in Japan)

GMB produces principal components such as Waterpump, Fan Clutch, Universal Joint, Steering Joint & Tensioner Bearing. GMB products assures the optimal quality through reliability based on the wide experience and knowledge developed from their own production techniques.

NPW (Made in Japan)

Waterpump & Fan Clutches

NPW is producing high quality OEM standard Waterpumps & Fan Clutches in the industry focuses mainly on the Quality. OEM Bearings and seals are used in all NPW Waterpumps & it has wide variety of Waterpump for all Japanese & Non Japanese vehicles & the fan clutches, which efficiently reduce engine heat, produce low noise, & provide the best fuel efficiency.

STAREX (Made in PRC)

Fuel Pump

STAREX supplies First Class Fuel Pump on the basics of Reinforced Technique which is manufactured with best quality raw materials. It is of reliable and guaranteed quality which assures excellent service.

STAREX (Made in PRC)

Oil Pump

STAREX also supplies high quality Oil Pumps which are manufactured under the standards of ISOT/S16949:2015. It is durable and allows a highly efficient oil flow to accelerate at a higher speed.

ERISTIC (Made in Taiwan)

Engine Gaskets

Eristic Gaskets established in 1980, has been engaged mainly in marketing and manufacturing of automotive engine gaskets, and oriented in the research and development of quality formulation and synthesis of premium-grade engine components.

MRK (Made in Japan)

King Pin Kit, Clutch Release Bearing, Valve Guide

MRK has been recognized as a leader in the manufacturing of auto spare parts, continues to provide the world automobile industry with high quality components. They are made of durable materials for greater performance.

HANSA (Made in Malaysia)

Hansa as a brand is well known for its high quality product ranges such as Carburetors, Ignition Coil, Electric Horn, Brake Pads & Brake Shoes, Starter & Alternators, Sealed Beam, Ignition Cable & Oil Pressure Switch. They are manufactured in Malaysia and applies for all Japanese and Korean Vehicles.

MUSASHI (Made in Japan)

Oil Seal & Valve Stem Seal

MUSASHI is a leading brand and it produces various products which were vigorously tested under strict analysis and research. Japanese quality which you can trust and rely on for long durability.

SEIWA (Made in Japan)

Plug Cord Set

Seiwa is a specialized manufacturer of spark plug cable sets with over fifty years of experience in the automotive industry. It provides a superior range of reliable products that have a well-deserved reputation for excellence both in Japan and overseas.

TSK (Made in Japan)

Cables

TSK is a leader in control cable technology, offering superior durability and flexibility and having the largest market share in O.E. business to all Japanese carmakers.

HKT (Made in Japan)

ELECTRICAL PARTS

Fuel Pump, Glow Plug & Radiator Cap

HKT Corp. is one of the leading engines parts manufacturers. It supplies diesel fuel pumps Glow Plug & Radiator Caps for the most important Japanese, Asian and European vehicle manufacturers. HKT products ensure high performance and greater endurance reliability.

ZUIKO (Made in Japan)

Timing Parts : Chain Guide & Chain Tensioner

Zuiko is a Japanese leading supplier of advanced automotive technology, systems, and components for all the world's major automakers. It offers combination of quality, coverage and competitive pricing.

YSK (Made in Taiwan)

Oil Pump

YSK Oil Pumps exhibit the same quality, durability, performance, and reliability to that of the OE product, by using the exact process of development and utilizing the same OE manufacturing plants for production.

NAPCO (Made in Japan)

Carburator Kit

Napco is one of the best manufacturers of high quality carburetor kits from Japan offering the products with wide range applications, best quality and price affordability.

KYOSAN (Made in Japan)

Fuel Pump

Kyosan Electric Manufacturing Co. Ltd. is a Japanese company being also a part of Toyota and Denso's holdings. With its excellent technologies and accurate responsive capabilities, Kyosan Electric supplies high-quality OE auto parts, such as fuel supply system, fuel pump module, diesel injection controller, etc.

CAMELLIA (Made in Japan)

Timing Parts & Timing chain

Camellia timing chains combine all of the performance characteristics that automakers demand, including strength, durability, low noise, and lightness.

TOYO (Made in Japan)

Universal Joints & Seals

Toyo Universal Joints & SEALS warranted with strict quality control and rationalized production system to meet original equipment standards.

TAMA (Made in Japan)

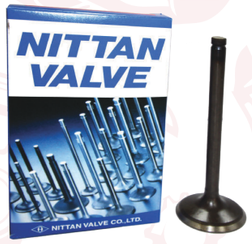
Thermostat

TAMA's primary products are automobile thermostats. All of TAMA products are made by OEM specifications, and have the same quality as genuine parts.

NITTAN (Made in Japan)

Engine Valve

Forging is one of the metal processing methods and the method to form metal by pressing it with hammers and press machines. Pressing metal helps to crush air gaps inside the metal, to align crystal structure, and to make products of higher strength. As a matter of course, our products cannot be manufactured without the forging technology.



IZUMI (Made in Japan)

Timing Chain

IZUMI provides an abundant variety and a wide selection of chains. IZUMI chains are well-known for their excellent performance and durability.

SUN (Made in Japan)

Timing Belt

SUN is a trademark of USHIO INDUSTRIES CO. LTD, JAPAN, and the company supplies original driving belts SUN for all automobiles produced in Japan with highest quality guaranteed.

CONTITECH (Made in Europe)

Timing Belt

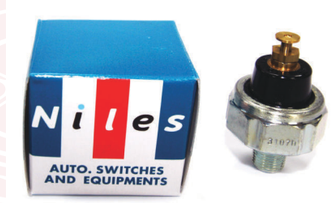
ContiTech Timing Belt Kits come complete with all the synchronous parts needed to do a timing belt repair quickly and efficiently.

JED (Made in Japan)

Camshaft

To withstand the high bending and torsion forces over the long term, the camshafts in the JED product range have been designed to incorporate high strength properties

NILES (Made in Japan)



Switches

Niles outstanding reputation for quality and technology has been embraced by auto manufacturers and automotive systems suppliers around the world.

GEN (Made in Japan, PRC)

Switches, Ignition Coils, Electric Horn, Sealed Beam

Gen operates manufacturing in Japan, China and Taiwan. Its high quality and cost effective electric parts make it a leading name in the electric industry.

YEC (Made in Japan)

Ignition Coil

All YEC ignition coil are made in Japan and high quality is guaranteed. We are proud to offer an extensive lineup, primarily for Japanese cars, with more efficiency and endurance.

FIC (Made in Japan)

Cylinder Kit :

FIC's extensive product line includes brake and clutch master cylinders, brake and clutch slave cylinders to hydraulic cylinder repair kits for all Japanese Vehicle applications. Each kit contains the highest quality rubber components, specially formulated to OEM matched specifications.

DAEWHA (Made in Korea)

Fuel Pump / Fuel Filter

Daewha Fuel Pump Ind., Ltd. is the specialized manufacturer in the field of automotive parts in Korea. Their product are highly tested and approved by various fuel mechanism.

NIBK (Made in Taiwan)

Brake Shoe & Brake Pad

Always striving to bring out the best in brakes, NBK Corporation is a trusted leading manufacturer for top quality brakes with a wide range of products covering main applications for Japan, Europe & the Americas.

TIK (Made in Taiwan)

Pistons

TIK has developed more than 3000 types of pistons including a full range of Japanese, European and American vehicles and over the past 30 years in the market. TIK provides O.E.M. Quality pistons for after-market sector and yield high customer satisfaction.

YOKOZUNA (Made in Thailand)

Rubber Parts:

There are various components or parts used in automobiles which is made of rubber. Yokozuna produces high quality rubber parts to be durable and efficient.

DREIK (Made in Japan)

Oil Pressure Switch

The oil pressure switch is a protection device for the engine. It is a kind of oil pressure sensor. For indication of oil level warnings and readings, we offer the DREIK brand from Japan of the highest quality.
